
Lightbox Lite using rel="" not working

Posted by corefelds - 2016/03/18 17:37

I've seen your Sexy Lightbox Lite in action on Joomla other sites and loved it, but can't seem to get it to work on mine.

Using in conjunction with gallerific.js

```
// Construct new hidden span for the image
var newSlide = this.$imageContainer
.append("")
.find('span.current').css('opacity', '0');
```

```
newSlide.find('a')
.append(imageData.image)
.click(function(e) {
  e.preventDefault();
});
```

I have manually called

in the head of the page.

Any help is appreciated!

Hello,

Call SexyLightbox.refresh() javascript code after creating a slide.

I have tried

```
// Construct new hidden span for the image
var newSlide = this.$imageContainer
.append("")
.find('span.current').css('opacity', '0');
```

```
jQuery(document).ready(function() {
  SexyLightbox.refresh();
});
```

```
newSlide.find('a')
.append(imageData.image)
```

```
.click(function(e) {
  e.preventDefault();
});
```

as well as

```
// Construct new hidden span for the image
var newSlide = this.$imageContainer
.append("")
.find('span.current').css('opacity', '0');
```

```
SexyLightbox.refresh();
```

```
newSlide.find('a')
.append(imageData.image)
.click(function(e) {
  e.preventDefault();
});
```

and

```
// Construct new hidden span for the image
var newSlide = this.$imageContainer
.append("")
.find('span.current').css('opacity', '0');
```

```
newSlide.find('a')
.append(imageData.image)
.click(function(e) {
  e.preventDefault();
});
```

```
SexyLightbox.refresh();
```

All 3 leave the Lightbox loading Icon, and no clickability for Lightbox to display.
Any tips are much appreciated.

The code should be called always after creating slide (bunch of slides). If it doesn't help, provide a link to a page where we can see a problem.

I'd prefer not to post a direct link on a public forum. Can I PM or email you the link to my dev site?

Initialisation code for the lightbox is not added to the page. It looks like:

```
jQuery(document).ready(function(){ SexyLightbox.initialize({"color":  
"black","dir":"\modules\mod_arisexylightbox\includes\js\sexyimages"}); });
```
