## refresh parent on close

Posted by luisa - 2010/11/17 22:32

---

i would like to refresh the parent window on close of the sexylightbox

either from the save button inside the lightbox or from the close button

can you tell me how to best achieve this?

Hello,

If button is located into , you can call the following javascript code:

```
window.parent.location.href = window.parent.location.href;
```

Regards,  
ARI Soft
