
some options are not saved

Posted by tvdeyen - 2011/09/22 17:38

Hi Ari Soft,

I just bought and installed your Photo Gallery extension in joomla (1.7), but when i'm setting the module options for mod_ariphotogallery, some of them are not saved? i seems like it is all the options regarding the chosen gallery type (image/flickr/picasa)... fx options like thumbnail width, directories etc.

Can you help me?

best regards,

Torben.

Hello,

Check that "System - ARI Extensions" plugin is installed and enabled.
