## joomla 1.7 internet exploror error

Posted by wcough - 2011/10/06 05:39

---

used to publish simple gallery from picassa on joomla 1.7.  
works fine in chrome etc. but gallery lightbox breaks in internet explorer.  
modal type box disappears and only one image is partially shown.  
ant update to v 1.30  
thsnks

Hello,

Could you provide a link to a page where we can see the problem? It can be a conflict with a 3rd party extension.

Regards,  
ARI Soft

Deleted modules created, uninstalled extensions, reinstalled extensions, recreated modules.  
Loads perfect in all browsers  
Thanks  
wcough :cheer:

Unfortunately what worked for a moment,  
same problem, tried many things, works great in all browsers except internet explorer.  
lightbox breaks.  
disabled or removed all extensions which(not many) may conflict .  
Still sames issue.  
Help!!
