Another question: Does ARI JZoom work with ARI Photo Gallery? I need this effect to my gallery thumbs (simple gallery mode).

Hello,

Sorry, but "ARI Zoom" doesn't support integration with "ARI Photo Gallery". It can be integrated with the next our lightbox extensions:

"ARI Sexy Lightbox"

"ARI Fancybox"

"ARI Colorbox"

"ARI Pretty Photo"

What do you recommend instead of Photo Gallery?

It seems you bought "ARI Sexy Lightbox", you can try it with "ARI Zoom" or choose appropriate extension on our demo site.
