## Photo Gallery very slow in Chrome

Hi,

I have now fiddled with every setting I can think of but with just 20 or thirty images, the plugin is horribly slow in Google Chrome.

Appears to work fine in Firefox (have not tested in IE or Safari).

(Click on Snowe in action)

Thanks

Hello,

Sorry for the delay. The following images are corrupted:

Try to fix them or delete. It should help.

Regards,

ARI Soft
