
Only some photos are displayed

Posted by jym1975 - 2013/06/02 08:17

I'm trying to configure a gallery but only 2 of my 5 pictures placed in directory are shown....

As you can see there

but in site I can see only 2 of them:

I've also tried uploading other pictures, and also there only 3 of the new 4 images are shown.....

Here you can see actual situation:

<http://www.esagramma.net/it/provagallery>

In folder I've uploaded 16 pictures...only 14 displayed.

5 of them are of first test. It's strange anyway that in first test only 2 of 5 were displayed, now after deleting and reuploading them, 3 are displayed....

From PHP error logs I can't see any error

Could you provide a temporary access to your Joomla! backend by email so we can investigate the problem?
