
Photo Gallery Image Display being covered by Menu

Posted by wedontbyte - 2016/03/30 16:15

Hi

I'm sure I've had this problem before but the fix I found in your forum doesn't work now.

Running Joomla 3.5.0 and JoomlaShine Dona Pro template.

An example can be seen here, after clicking on one of the images under "Advanced Colour Prints":

I've tried reducing the templates menu z-index value but to no avail, I'm afraid.

Many thanks.

Hello,

Add the following CSS rules to a site template CSS file and clean browser's cache:

```
BODY #mb_gallery_ {z-index: 100001;}  
BODY .mb_overlay {z-index:100000!important;}
```

Regards,
ARI Soft
