Hi is there a way to create questions with free text with more then one answer ?

e.g Tell me 3 countrys

free text 1

free text 2

free text 3

Hello,

No, currently free text question contains only one field for answer. You can submit feature request and may be we add this featur in one of feature releases or you can order custom development.

Hello,

We'll add this feature in one of future releases but not in the nearest.
