Virtuemart, OSE Membership, and ARI integration
Posted by jeffko - 2011/02/07 17:35
_____

Hello,

I have got this wonderful product (ARI-Quiz) installed and have made the quizzes, the templates for passing and failing, have installed my SSL certificate, got authorize.net working, I can charge for memberships, and the money is deposited correctly in my account. The problem is that after paying for the tests (I have 5 categories of membership) that the test will not appear. About 6 months ago I was able to (If I remember correctly) make a product inside virtuemart that was directly tied to ARI-Quiz. Please email me at jeff@jeffkojeffko.com or post your suggestions here.

To make it clear what I am (Attempting to do) doing, here goes:

I have 30 tests that are worth varying degrees of credit.

One hour
two hour
three hour
four hour

The students need about 30 hours per year of credits, and they get them through working and testing. some may only need one, two or a few more and can choose to pay for just a single test, so I have created one hour, two hour, three hour and four hour memberships (some of the tests are harder and longer) where you should be able to choose which test you want. I have also created and annual membership which includes all classes. I have made copies of all the tests and added to the title annual membership so they have their own category.

I also need to have the quiz study guide, a pdf file emailed to, or a link to it appear after payment. and for it only to appear to those who have paid for it.

Needless to say, i could use a road map and thank any who have a few minutes to assist.

Hello,

We have sent letter from our secondary mailbox because it seems you haven't received our letter from primary mailbox.

Regards,
ARI Soft

_____

Are you guys getting my emails? Can you email me a phone number and what your time zone is and what hours I can reach you? I am sure this problem can be rectified quickly.

Blessings,

Jeff

_____

It has been a week since you said it would be 2 days, Are we making any progress?

Blessings,

Jeff

_____

Was there a solution to this? Is there a guide that was created. This is almost exactly what i am trying to do however the only difference is that I wish to sell one course at a time to my students. (In addition to paid memberships such as you have described)

Would love to talk to you about your site and share some experiences. What is the url? I believe yours in in the health care field? Not my area of business so no worries..

_____

versaman--these guys (Ari-Soft) came up with a solution of sorts, I am still running it through tests to see what has to be left enabled, which has what permissions, etc. I need to look at forum rules to see if this is allowable to exchange info from members, I would not break the rules here under any circumstances, but short answer to your question, the solution is about there I need to try to mess it up and see what mods will do what, etc.

Stay tuned

There is no PM system here, so I would imagine it is not a good idea to publish personal data.

To the Ari-Soft Team, you will hear from me soon, just about done it looks like. Great job so far.

Blessings,

Jeffko
