## Quiz Countdown Timer Styling

Posted by drocks - 2011/02/18 07:59

---

How to style the Count Down timer. I mean increase the font size, Moving the div at the top of the quiz, etc.

Thanks

Hi,

I have downloaded the free version.

Thanks

OK, it seems you created your post in incorrect thread. You can use the following CSS rules that change timer:

```
/* label */
TD.ariQuizTimeCnt
{
    font-size: 20px;
    font-weight: bold;
}

/* time */
TD.ariQuizTimeCnt input.ariQuizTime
{
    font-weight: normal;
    color: green;
}
```
