How to tell which version is installed ?

Posted by Bambino - 2011/03/28 12:56

_____

Sorry for the dumb question...How can I tell which version of the plugin (Ari quiz) is installed on my website ? I last updated it months ago and I can't remember which version it was at the time.

_____

Hello,

Version of any plugin can be found on "Extensions -> Install/Uninstall -> Plugins" page on Joomla! backend.

Regards,
ARI Soft
