
How to prolong license

Posted by Bambino - 2011/03/30 13:33

Hi guys,

My license is ending soon and I'd like to purchase a new license for one more year.

In the FAQ, I can read : "If you wish to prolong the license this costs half of product price/year."

Where can I find a link to prolong my license for half the product price ? I only see the option to buy the whole product again.

Many thanks!

=====

Hello,

Prolonged license key is required only if you want to get new versions of the component after expired date. If you are interested in prolonged license key, contact us by email please.

Regards,
ARI Soft
