## Quiz fade in on start date

Posted by proterra - 2011/04/04 08:21

---

How can the quiz question can fade in on the start date and fade off at the end date.

And how I can change the font size or can I integrate a alternative button.

Hello,

It is not possible to set start and end date for questions. It is possible to define them only for quizzes.

You can change the next template files:

/components/com\_ariquiz/view/quiz.html.php - this is template file for quiz description page

/components/com\_ariquiz/view/question.html.php - this is template file for quiz questions page

Regards,  
ARI Soft
