## licence to another domain

Posted by phena109 - 2009/02/26 09:13

---

I am thinking of purchasing ARI Quiz, but then the application of the domain name is still in progress (hopefully [www.estudy.com.au](http://www.estudy.com.au)). I wonder if I can purchase ARI Quiz for my another domain for the time being for testing purpose and then switch to the true site when the domain name is set?

Thanks

Hello,

You can generate testing and production license after purchasing the component. You can use the component with testing license on your current domain and when you choose production domain name you can generate production license for production domain.

Regards,  
ARI Soft

But when I try to purchase the component, it asks me for the domain name. I can't just give out a domain name which is not mine yet.

What should I do?

Don't worry, you can skip this step, leave this file empty.

I am not sure what is wrong. On my paypal account, it is appeared that the transaction is done on 26th Feb 2009. In my Member Area, I still haven't got anything for me to fill in my domain name. I wonder have you receive the payment yet?
