make quiz without correct answer

Posted by fcodebue - 2011/04/09 16:48

_____

I'm interested about creating a quiz qithout a correct answer. Infact it is interesting to poll users to direct, to orient guest users to some other information of the site.
I'm creating quiz to understand what youth will choice about their college.

So using specil question I can understand if you prefer math, computer science, art or music ;)

_____

Hello,

Currently the extension doesn't support this type of question.

Regards,
ARI Soft

_____

but can I give something like a different weight to the answer without tell : this is correct answer?
I suppose will enough that I can set that all answer are correct!

_____

You can try to use "Multiple Summing Question" question type.
