## Testing Key Issue

Posted by kirkhayes - 2009/03/01 18:05

---

I am hosting on godaddy and submitted the preview url for a testing license which is <http://XXXXXXXXX.com.previewdns.com/home/>

However, the testing license generated doesn't work because the ari-component thinks the url is really <http://xxxxxxx.com>

How can I generate the correct testing license?

Thank you very much. I would suggest allowing developers the ability to generate more than one testing license.

Thank you for the quick response.

Hello,

We add possibility generate 2 testing license for one purchase.
