
ARI Quiz Upgarde

Posted by robert_patti@yahoo.com - 2009/03/11 04:57

How does one upgrade to ARI Quiz Release 2.3.0 (last update on Jan 16, 2009)?

My upgrade install returns "Install Component Error." No upgrade steps are provided in the release's readme.txt file.

Hello,

You can upgrade ARI Quiz as standard Joomla component. For this uninstall previous version of ARI Quiz (all keep untouched) and install new version.

Regards,
ARI Soft
