Multiple Question Save/Cancel button failures

Posted by robert_patti@Yahoo.com - 2009/03/12 02:54

_____

The Save, Apply and Cancel buttons do not work in my just downloaded and installed 2.3.0 version. When I try to add (and Save or Cancel) a Question Template Multiple Question, Quiz becomes unresponsive for a Save or Cancel.

As a check, I also tried to add a Question Template 'Multiple Question' in the ARI Quiz Demo site and again, the Save, Apply and Cancel buttons are non-functional.

Browser was Firefox.

_____

Hello,

It was bug. Download the latest version ARI Quiz in 'Member Area', please. It contains fix for this issue.

Regards,
ARI Soft
