Quiz results visible to all?!

Posted by mtl83 - 2011/05/09 12:28

_____

Hi,

I run a site where users can take tests based on journal article content. I want users to be able to view their results in a CB profile tab, but not be allowed to view other users' tabs. Is this possible? I think it used to be the case but it seems to be different since I last updated the software.

Thanks!

_____

Hello,

Currently it is impossible.

Regards,
ARI Soft
