Hello,

I am considering purchasing Ari Quiz but I want to make sure if I can provide a translation of the product in Dutch. Is this possible and how?

Hello,

Thank you for your interest in 'ARI Quiz'. You can add new language on 'ARI Quiz' backend. For frontend in 'Languages Frontend' section and for backend in 'Languages' section. You can click 'Add' button, translate message and click 'Save' button or you can 'Export' language file, translate it on your local machine and export it.

Regards,
ARI Soft

Is simpel te doen in de backend! Zelf een language aanmaken en dan ... vertalen maar. Zoals je het zelf wilt!:laugh:
