
OSE membership control

Posted by stefstef - 2011/05/18 01:20

Hello

First:

can someone please assist me as to how to add an protect Ari quizzes with OSE (Membership plugin)?

Secondly:

Also is there a way to link internally to tests, (not with www.mysite.com/ etc...) but directly to the test, like you do when linking an ordinary article)

I await hopefully for a response :dry:

Thank you

Stefan

Hello,

1. About OSE, try to contact OSE developers. It seems OSE v.5.0 doesn't contain plugin for "ARI Quiz".

2. If you mean quiz description page, it is possible to assign menu item if choose "Internal Link -> ARI Quiz -> Quiz -> Quiz Layout" menu item type.

Regards,

ARI Soft
