Add question to a quiz not appear

Posted by sylvano99 - 2009/03/24 15:52
_____

hello,

I added questions to a quiz exist but they do not appear in public front.

can you help me?

_____

Hello,

Check that you have completed all previous quiz. This can happen if you started to pass quiz and leave quiz, add a question on backend, and returned to pass quiz, you see your previous quiz. You will not see quiz with new question until you have finished previous quiz.

Regards,
ARI Soft
