\'display\' in statistics html page
Posted by lpolak - 2009/04/01 19:38

_____

Okay, Thanks a lot for your last quick reply that put me on the right track! One more question: When i finish the test the result page is shown with the answers/explanations. The number of items displayed is always equal to the number of questions. Is it possible to set the number of items in the 'display' field permanently to 1?

_____

Hello,

You can't this property in quiz settings, but you can find zip archive in attach http://www.ari-soft.com/images/fbfiles/files/quiz_finished.zip , unzip it and copy file from it to /components/com_ariquiz/frontend_pages/ folder. After this only one question will be show on quiz statistics page.

Regards,
ARI Soft

_____

Tried that but unfortunately got the following error message:
Fatal error: Call to undefined method AriTextTemplateEntity::parse() in /home/leerschrijven.nl/public_html/components/com_ariquiz/frontend_pages/quiz_finished.php(18) : eval()'d code on line 1
:ohmy:
