_____

Here is my next problem: I try to skip the first page of Ari Quiz:
"http://www.tekstbureauklavertje4.nl/index.php?option=com_ariquiz&Itemid=81" and link to
"http://www.tekstbureauklavertje4.nl/index.php?option=com_ariquiz&task=quiz&quizId=1&Itemid=81"

When i want to change the link in the menu-item that links to Ariquiz it is not possible to change the content in the 'link'
field. Anybody?
