Hello,

Provide link to page where we can see the problem. It can be a conflict with a 3rd party extension.

Hi again .

Just tested and the whole quiz page is still BLACK

Pagelink: <http://www.kameratest.dk/interaktivt/manedens-quiz/quiz-test.html>

NB.ari-soft team - you have to login to see the page!

This background is defined in site template. Add the next CSS rule to a site template CSS file that remove the background:

```
html body
{
    background: none transparent;
}
```
