Hello!

"Please also in Ari Quiz enable the plugin for the integration with us to make the control work. Ari Quiz team should have and provide this plugin."

It told me the developers OSE. which plug they had in mind?
Where can I get it? can you send me this e-mail?
We need to control access to the quiz.

Thanks!

It works with "ARI Quiz" v. 2.0+. It seems the problem with the latest version of "OSE Membership", we suppose API of "OSE Membership" extension was changed.
