Hello to all my friends at Ari-Soft. Can I now upgrade OSE, VirtueMart and the NEW Ari-Quiz for Joomla 1.7?

Conversely could I get a temporary license to attempt to put everything together in a new installation?

Lastly, here is what I would imagine to be install order.

Joomla 1.7
VirtueMart
ARI-Quiz
OSE

Any thoughts?

Hello,

"ARI Quiz" v. 2.10.0 supports Joomla! 1.7 and it doesn't require any license keys. About other extensions, you can contact their developers.

Regards,
ARI Soft
