If you have random turned off, is there a method to change the order of questions within a question bank?

Hello,

It doesn't matter what order of questions in bank, a quiz uses questions order inside quiz questions.

I'm sorry, I don't follow. How do I change the order that quiz questions are asked? Neither the question # or ID number are editable within the question bank.

You can use arrow buttons in "Reorder" column to change questions order for quiz questions:
