
How i can edit a question.

Posted by nestortoledo - 2009/05/13 12:41

Hi, i have all question added to diferent quizzes. and i want to change some letter in the questions.

If ig to to quizzes - (questions) view - click in the question to change.

I get a new windows were i can saw the question and ansers, but we cant change anything.

Hello,

If you mean questions from question bank then open 'Question Bank' section, find needed question and change it.

It seems that you mean popup, which appear on 'From Bank' button click, instead of 'Question Bank' section. If it's true, click 'Question Bank' link on the component backend or if you wish open bank question from 'From Bank' popup, check 'Load Used Questions' checkbox.
