## Question count different to question bank count

Posted by kun - 2011/09/12 22:03

---

Hi, I've been using Ari quiz, I have a quiz and specify the question count to 10, however 15 questions were added to the quiz to allow for some randomness.

Although i set the quiz question count to 10, it still gives me the whole 15 to every user.

What can I do? :S

Hello,

Provide your order number and license key by email please.

Regards,  
ARI Soft

I'm sorry for the mistake. I was posting on the wrong forum, I'm using the free extension Ari quiz lite. :S

Anyway, i found that by limiting the question count in the question category, it works.

Very nice component. Thank you very much for an amazing job :woohoo:
