
Quiz questions not getting saved

Posted by moorsu - 2011/09/13 07:15

I had set up Joomla 1.5 and Ari Quiz 2.9.10

Localhost Configuration

mysql - 5.5.9
php - 5.2
Apache- 2.2.17

I am able to save, create and update the question.
But on uploading to the website with the below configuration I am facing few issues.

mysql - 5.0.9
php - 5.2
Apache- 2.2

The issues are

1. When trying to update an existing question or creating a new question, on save the question content does not get saved.
The question column is saved empty with no content.

2. After changing the Joomla configuration to Search Engine friendly, the images in the question are not getting displayed.
