The extension can't work in this way, but it provides ability to specify start and end publish date and if a user try to get a quiz not in publish date, warning message appears and s/he can't take selected quiz. Regards,	
Marked a quiz as inactive, then set its publish date for one day in the future but it did not automatically activate it on the published date. How do I make this happen? Thanks, Mike.	How can set a quiz to become active automatically. Posted by MikeWelsh - 2011/09/14 08:51
published date. How do I make this happen? Thanks, Mike. ———————————————————————————————————	Hi,
Thanks, Mike.
