created about 12 questions in question bank. if i choose to display 10 questions by page, it doesn't appear the ecessary butons to navegate to the next page, or they don't work.
m I doing something wrong?
this is a bug, it will be dificult to control the questions after 100 questions made.
Rui Mourato.

Hello,
Oo you use the latest version of the component?
Regards, IRI Soft
Re:bug in question bank?  losted by rmam - 2009/06/08 14:52
use version 2.4.0. I think it's last.
Rui.
