
How to have more than one question in a quizz ?

Posted by KrisTian - 2009/06/28 20:42

Hello (again) :) I put five question in a quizz. When I want to do the quizz, it only show one random question before the results. But I need to have 5 random question before results. How can I set this ?

Hello,

Check 'Question Count' option on quiz settings page and question categories settings pages. May be you have set it to '1'.

Could you provide access to your Joomla! backend by email (info@ari-soft.com) that we can investigate this issue?
