## association ariquiz-article- unread articles

Posted by robytotem - 2009/07/01 11:34

---

Gm.

I'm try to config my ariquiz(V 2.3) to associate id article with the id quiz for use this association to create a list of unread news, that must be decrease with a passed quiz. With the id user i must to say if a user (userid) have make the quiz and if he have passed it (Passed=1) i make a quary to remove this article from unread??? if i undestan this...that article will be removed form unread and will be inserted to the read category!!!

can you help me??? :(

tk's from Italy

:cheer:
