
How to insert ARI Quiz into article

Posted by tang_on - 2009/07/02 12:52

I already install ariquizincontent plugin but I can't insert quiz in article. Please explain me about method to insert ARI Quiz into article in step by step.

Thank you

Hello,

Enable this plugin and place in article the following code:

```
{ariquizincontent quizId="quiz_id" scrolling="no"}
```

Where quiz_id is ID of needed quiz. You can find ID in quizzes data grid (Components->ARI Quiz->Quizzes page).

PS: You can also find information about the plugin on the site of its developers.

Regards,
ARI Soft

yes, I insert

```
{ariquizincontent quizId="quiz_id" scrolling="no"}
```

is

```
{ariquizincontent quizId="1" scrolling="no"}
```

but it still show this code and not show quiz.

What I do wrong??

Do you enable plugin? You can check it on 'Extension->Plugin Manager' page on your Joomla! backend.
