
How to make sub-menu to show result statistics

Posted by tang_on - 2009/07/02 12:57

Hello

I want to make sub-menu to show statistics result same like ARI Quiz demo. I want to show about who take quiz, date, score.

Please answer me

Thanks

Hello,

Go to Joomla! menu manager page, create new menu item, choose 'External Link' menu type and set value of 'Link' field to `index.php?option=com_ariquiz&task=quiz_stat`

Regards,

ARI Soft
