How to migrate from ARI Quiz v. 2.9.3 (Joomla 1.5) at ARI Quiz v. 2.10.0 (Joomla 1.7)?
How do I transfer tests with questions? Tables of Quiz in the database have differences ....

Hello,

Copy extension's tables from J! 1.5 database to J! 1.7 database and then install the latest version of the extension
through standard Joomla! installation page. Installer do all necessary upgrades.

Could you provide temporary access to J! 1.7 backend so we could investigate the issue?

We have installed the extension, but it seems J! 1.7 didn't contain extension's table from previous version.
