
Text or banner under quiz title

Posted by lecommand - 2009/07/14 07:56

Hello,

I have a quiz with about 40 questions. Is there a way to add some text or a banner right under the quiz-title?

Many thanks
Bastian

Hello,

You can edit quiz template file which you can find by the following path:

/components/com_ariquiz/view/question.html.php

and add in it code which shows banner or use JEZ Module Loader plugin, place code of this plugin in quiz template file and load any Joomla! module which can shows banners and supports AJAX.

Hello,

You can insert google adsense code to the following template file:

/components/com_ariquiz/view/question.html.php

This template uses for displaing quiz questions.

but ads are not refreshing
same banner/ad is coming with all questions.

Hello,

It happens because 'ARI Quiz' uses AJAX technology, but Google AdSense can't work with AJAX application. Refreshing Google AdSense banners in AJAX application without page reloads can cause problem with Google AdSense TOS and AdSense account can be banned. We can create system plugin for Joomla! 1.5 which will reload page when user click 'Save' or 'Skip' button, in this case banners will be reloaded.

Hello,

Sorry, it was a bug, but we have fixed it. Download the plugin again and re-install it, please.
