
can not hide pre/next button

Posted by mistan - 2011/10/24 08:29

I can not hide the prev/next button. I switched off in Basic Options, still shows in the front end. Please help. Thanks.

Hello,

Disable "Can Skip" parameter in a quiz settings and complete previous quiz session. If it doesn't help, provide temporary access to your J! backend by email so we could investigate the issue.
