
Linking to quiz in jomsocial activity stream

Posted by bijuhameed - 2011/10/27 15:28

Hello,

Is it possible to link to the quiz in jomsocial activity stream

Thanks very much

Hello,

Do you mean a message which appears in activity stream when a user completes a quiz?

Default message contains a link to a quiz. Open "System - ARI Quiz activity for JomSocial" plugin settings page and check that "Activity message for new articles" parameter looks like:

{multiple}{actors}/{multiple}{single}{actor}/{single} passed {\$QuizName} quiz.

Thanks Admin.

I tried that. However the html code is being stripped off from the fields on saving.
