
error: Dear, Guest! You have Not Passed quiz '{\$Qu

Posted by softwareqatestings - 2009/07/21 03:32

Dear Support,

For some of the quiz I am getting the following error. It is quite random and those quiz were working fine before.

Dear, Guest! You have Not Passed quiz '{\$QuizName}'.

Quiz Result

Result : {\$UserScore} / {\$MaxScore}

Percentage : {\$PercentScore} %

Passed : Not Passed

Start Date : {\$StartDate}

End Date : {\$EndDate}

Spent Time : 0 sec

Passed Percentage :

{\$PassedScore} %

Please help.

Hello,

It seems that problem with SEF URLs because it redirect to incorrect finish page, say, please, which component you use for this purpose?

Hello,

We can't reproduce this problem on our testing server. Could you try to switch off Artio SEF for ARI Quiz and check how it affect on issue?

I have switched it off. Problem is still there.

Can you have a look.

Meanwhile I am also investigating this.

Thanks

Could you provide database dump for tables with prefix #__ari where #__ - Joomla! table prefix, usually it's jos_ by email (info@ari-soft.com)?

Check your mail, please. In brief, could you provide SQL dump instead of CSV dump because CSV dump is hard to restore.
