How can i put registration field before users go to make quiz?

when users finish the quiz i want to add field where they must add Name and Last name, i want to see who play the quiz,its this imposible?

Hello,

Unfortunately the component doesn't support this ability, but you can submit feature request here and we'll implement this possibility in one of the futures releases. If you need this feature urgently, you can order custom development. It will cost approximately 1 work unit.

Regards,
ARI Soft
