Is it possible for a user who did a quiz to see the answers?
I would like to offer the possibility to see what were the right questions...

Thomas

Hello,

There is no such possibility in ARI Quiz right now. We are working on making ARI Quiz Joomla 1.5-native compatible and the feature you are talking about will be available in the next version of component but there are no exact estimates. If you need this feature soon you can order custom development: <http://ari-soft.com/Custom-Development/Support/Work-Unit/Detailed-product-flyer.html>

If you are interested in custom development please drop us a letter and we will estimate how much time it will take us to implement this for you.
