_____

Hi,

I've installed AriQuiz and everything works ok. I've just a problem. In Quiz results page, when i click on "View" under Details, it show me a white page.

Why and what should i see there?

Thank you

Problem solved...

It was enough to set a template :blush:

Can i put a new question here?

I'd to know if it's possible to show the highest score of a certain quiz with or without the respective username in quiz.html.php.
