
Quiz results always: not passed

Posted by dr.alghamdi - 2009/10/19 21:20

Dear ARI,

i have made a sample question at www.radiology2.com

The problem is that even if the correct answer is selected the quiz result always says:

Dear, Guest! You have Not Passed quiz 'Questions:'.

Quiz Result

Result : 0 / 0

Percentage : 0.00 %

Passed : Not Passed

Start Date : 2009-10-19 21:16:29

End Date : 2009-10-19 21:16:43

Spent Time : 14 sec

Passed Percentage :

100.00 %

Hello,

Do you set score for questions in your quiz?

Regards,

ARI Soft

Thank you.

That is wright i first put the score % in the quiz it self but you have to put it also in the score question.

Dear ARI Team

I have the same problem. I have the full version of ari quiz. There I made a simple quiz with "single questions". In the quiz I have set the Passed Score % to 50.00. In the Questions is it always the same stucture: 4 possibilities and 1 is correct. In the correct one I gave 100.00 %. Everytime after finishing the result will be "NOT Passed" , also then when I give in the Quiz Passed Score % to 0. Some other parameters also doesnt work:

{ \$MaxScore } / { \$UserScore } / { \$PercentScore } / { \$PassedScore } / { \$Passed }

Very frustrating !!! Your component doen not really work !!! <http://www.ari-soft.com/images/fbfiles/files/pic.zip>

Hello,

Do you populate "Score" parameter in question settings or leave default 0 value?

Regards,
ARI Soft
