
Fatal error after upgrade!!!

Posted by plooney - 2009/11/02 13:42

I have just update ariquiz and my site is down!!! For this error:

Fatal error: Class 'AriJoomlaBridge' not found in
/web/htdocs/www.montenerodibisaccia.com/home/ildrufo/administrator/components/com_ariquiz/kernel/Components/AriQuiz/class.AriQuiz.php(18) : eval()'d code on line 1

Please i need urgent help!

Could you provide temporary access to your Joomla! backend by email(info@ari-soft.com) that we can investigate this issue?

Regards,
ARI Soft

Today is a bad day for me!
Now AriQuiz works. But. If i try to active the plugin arismartcontent is all like before: site is down for the same fatal error
!!!! Only after deactivation of this plugin site is up.

Please solve this: You have acces for my backend in you e-mail.

Thank you for your fast support.

It's conflict between ARI Smart Content and ARI Quiz. We are fixing this problem. We'll provide fix within 30 minutes.
Sorry for inconvenience.

Regards,
ARI Soft

Download the latest versions of ARI Quiz and ARI Smart Content from 'Member Area' and re-install them, please. It should resolve issue.

Regards,
ARI Soft
