## Your Quiz Results - if no results show message

Posted by brentc - 2009/11/17 21:27

---

Currently if you use the Your Quiz Results module and have not taken any quizzes yet the module displays nothing "Empty". How can I change/edit the module so it will show "You have not taken a quiz yet"

thank you,  
Brent

Hello,

You can submit feature request here and we'll implement this possibility in the next release of ARI Quiz.

Regards,  
ARI Soft
