
Change button label \"Continue\"

Posted by Steinar Smith - 2009/11/18 18:00

How can I change the button label "Continue" at the start of the quiz?

Regards,
Steinar

Hello,

You can change all labels in 'Frontend Languages' section on the component backend. Choose existing language or create your own, change necessary messages, save it and set this language by default. That's all.

Regards,
ARI Soft

Thanks! And setting the language as Default might help :-) (Had missed that one).

Steinar
